SECRETARY, CARSON THEE STALLION

- Carson followed up with the SGA on the meeting he had with Dr. Frye on the “academic climate”. Some ideas, replacing distinctions with research opportunities, mandatory study hours, ACT prep, change in physics requirements, and research, were presented. Carson opens the floor for discussion and feedback from the SGA.
- Feedback included:
 - Students should be independent enough to study on their own time.
 - The campus quiet hours could be an amazing resource to help students
 - Some sophomore SGA representatives did not like the idea of replacing distinctions.
- Carson consistently had to remind the SGA that everything he spoke about was completely conceptual and still in the works.

TREASURER, MAY\$AP ROCKY

- The game room renovation day would entail making the game room a retro / arcade theme. The Renovation Day is on January 11th from 10am-3pm. CLC will be shopping for furniture and decorations to buy with the PA Grant. May wants this to be a fun campus-wide event.
- The compost committee is coming together! Before composting can start, CLC must do a compost presentation. It will be done during an assembly soon. Compost Committee will contain five different groups.
