ALABAMA SCHOOL  
OF MATHEMATICS AND SCIENCE

# ASMS HAS GOT TALENT

A VIRTUAL COMPETITION  
AND SILENT AUCTION

Saturday, October 10th at 6:00 PM

The Alabama School of Math & Science is home to the brightest, gifted and most talented high school sophomores, juniors and seniors in the state. Over the past three decades, ASMS graduates have earned over \$240 million in scholarships, eight graduates have earned Bill Gates Millennium Scholarships and 155 are national merit finalists. Another group of bright, eager teenagers has enrolled and placed their education in our hands and with your help we can continue to provide incredible opportunities to these exceptional young men and women.

A terrific opportunity for you to support our school is by donating an item, gift card, service or financial contribution to our only major fundraiser – The ASMS Talent Show and Silent Auction. Parents throughout the state attend this event – it is a unique opportunity to promote your business to a new and expanded audience while also demonstrating your philanthropic commitment. The proceeds from the event go directly to the school to enrich the lives and education of the students. The virtual competition will be held October 10, 2020 at 6:00 followed by the silent auction at 7:00. Please consider this donation to the students who represent every county in Alabama. Your generosity will help ensure that the students of ASMS receive the best education possible in the place they call “home” while in high school. ASMS is a 501c3 charitable organization. An acknowledgement letter will be mailed to your business for year-end tax purposes following the event.

Gratefully yours,

Dr. Samantha R. Church  
Director of Development
