1 February 2019

Dear ASMS Families,

We need your help in educating our state legislators about ASMS and the wonderful impacts our school has had on your student/family. As the legislative sessions begin March 5, we encourage you to contact your local legislators now (**for your district only** – see attached for senators and representatives or at <https://myaea.org/legislators>), and either make a personal phone call or send a printed letter through the US mail. Emails are less likely to be read, as we understand it.

The second page of this letter contains a sample letter that you can copy and paste, and then customize to meet your needs and spread the good word about ASMS! As you reflect upon the many ways your student has grown and changed this year, from academic to artistic endeavors, we invite you to convey to our legislators how ASMS has provided the opportunity for challenging academics and nurturing of these talents. As our legislators enter their upcoming sessions, we ask for their continued support, and continued funding for our school.

Should you have any questions or concerns, please feel free to contact Dr. Samantha Church, Director of Development at ASMS by email at schurch@asms.net or by phone at 251-441-2171. Thank you for helping to secure the future of ASMS.

With gratitude,

Dr. Samantha Church, Director of Development, ASMS
The ASMS Parent Association 2018-2019 Executive Committee

February ??, 2019

Senator/Rep First and Last Name
Street Address or PO Box listed
City, AL ?????

Dear Senator/Representative (enter last name here),

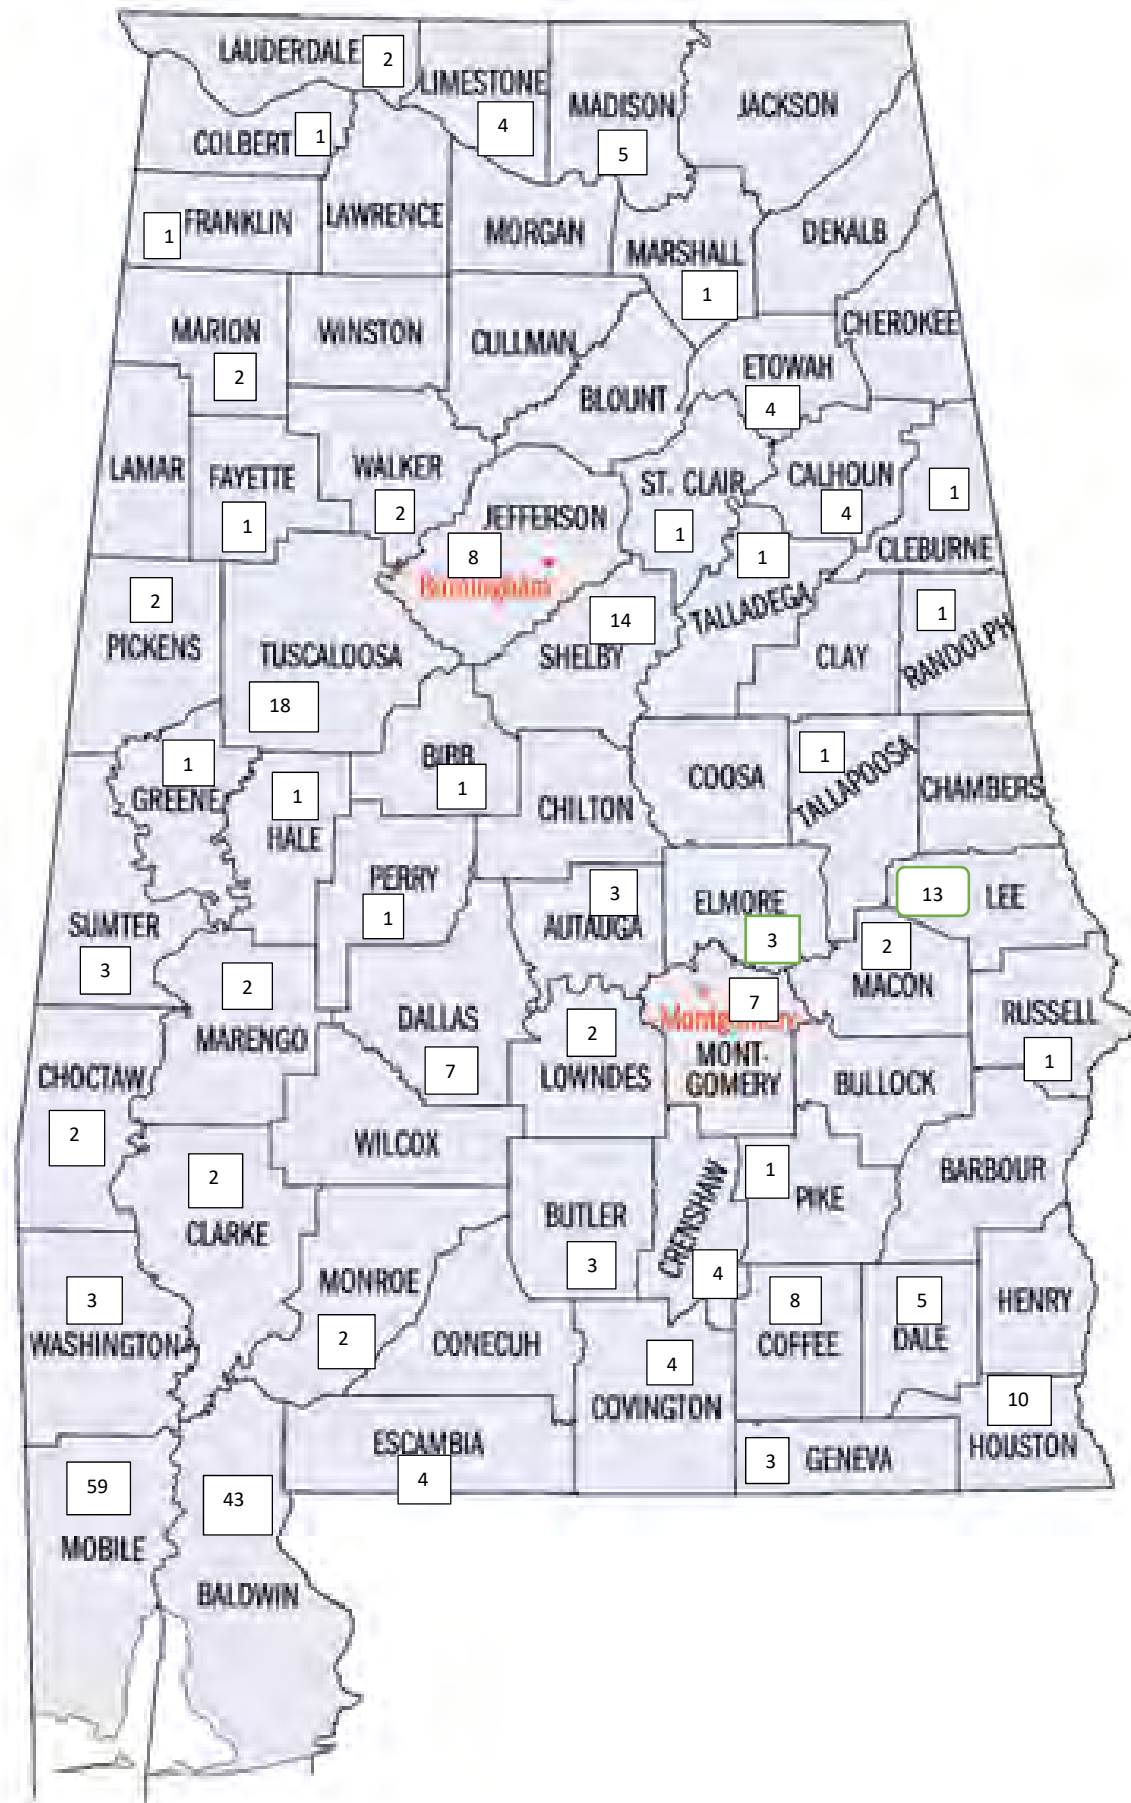

I wanted to thank you for supporting education in our state, specifically the Alabama School of Mathematics and Science (ASMS), where my son/daughter attends. Although my family lives in _____ (city/town name) in your district in _____ county, my son/daughter (enter student's first name here) applied and was accepted to ASMS as a rising high school sophomore/junior (pick one). S/he was excited about being selected for one of these competitive spots, and the opportunities s/he has for a quality education right here in our state in Mobile, Alabama.

<Alternate closing sentence for paragraph above: As one of only 2(??) students from our county selected for one of these competitive spots.....see enclosed enrollment numbers by county>

As our state's only public fully residential high school, my student receives a high-quality STEM-focused education while also excelling in band/music/the arts/foreign language/study abroad (fill in the blank with some humanity area here). The unique nature of this school provides exposure to research, internships, and scholarship opportunities s/he might not otherwise have. As a result, my son/daughter has participated in (summer experiences/camps, sports, study abroad) and benefits in many ways (can expand here with specifics). I cannot express how much this school has impacted his/her life, now and in the future.

We want to thank you for your continued support of education in the state of Alabama, especially ASMS. Our family can see the growth and maturity of our student, and know this opportunity will serve them for years to come as they head off to college and beyond. ASMS is laying the foundation for our student to make the state of Alabama a leader in science, technology, engineering and math in creative ways. We are excited for the future of our young leaders and thank you for all that you do to support the Alabama School of Mathematics and Science!

With gratitude,
Your name(s) here
